Automate your hiring process

Indago7 – Technology solutions for HR Issues

Indago7 offers employers and third party recruiters a powerful, 100% web-based applicant tracking and requisition management system. There is no setup and no downloading necessary to use our 100% web-based application. All you need is internet access... We handle the rest!

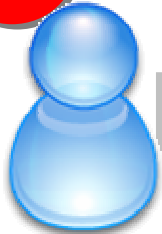

Indago7 is designed to improve your profitability by reducing costs and increasing revenues. Statistically, the industry average cost per hire is equal to three month's pay of the hired employee. Indago7 has the tools you need to make more quality placements and cut cost per hire. For more information please visit www.Indago7.com.
